SUMMARY

Hello, I'm a skilled web and graphic designer with over three years of professional experience. Passionate about creating visually stunning and user-friendly designs, I bring creativity, technical expertise, and a keen eye for detail to every project I undertake. With a solid foundation in both web and graphic design, I excel in translating clients' visions into compelling digital experiences. Currently, I am expanding my skill set by learning React.js and aspiring to transition into a role as a front-end developer. From concept development to final implementation, I thrive in collaborative environments and am committed to delivering high-quality results that exceed expectations. Let's connect and discuss how I can contribute to your team's success.

WORK EXPERIENCE

BABUSIYA (RATE-VIEWER TECHNOLOGY PRIVATE LIMITED) – Kolkata, WB, India
Web, Graphic Designer & Developer, December 2021 - Present

- Designed visually appealing website layouts according to client requirements and project specifications.
- Translated designs into HTML websites, ensuring compatibility across different browsers and devices.
- Utilized RedGrape software to develop and refine website functionality, incorporating interactive elements and dynamic features.
- Collaborated closely with team members and stakeholders to iterate on designs and implement feedback for optimal user experience.
- Managed multiple projects simultaneously, adhering to strict deadlines and delivering high-quality results consistently.
- Stayed updated with industry trends and best practices in web design and development, continually refining skills and techniques to enhance project outcomes.

RT Network Solutions PRIVATE LIMITED – Kolkata, WB, India
Web Designer, October 2020 – November 2021

- Translated PSD or Figma designs into pixel-perfect HTML websites, ensuring accuracy and attention to detail in the implementation process.
- Utilized advanced HTML and CSS techniques to achieve the desired visual effects and layout consistency across different screen sizes and devices.
- Developed custom WordPress websites using Elementor page builder, leveraging its drag-and-drop interface to create dynamic and responsive designs.
- Collaborated closely with designers and project managers to understand client requirements and effectively communicate design constraints and technical considerations.
